At DSCC we believe:

- In helping children learn the consequences of their behaviour and thus develop an understanding of how their actions affect others.
- In involving parents/guardians in issues relating to the guidance of their child's behaviour.

Purpose

This policy will provide guidelines to ensure:

- the development of positive and respectful relationships with each child at Dawson Street Child Care Co-operative (DSCC)
- each child at DSCC is supported to learn and develop in a secure and empowering environment.

SCOPE

This policy applies to the Approved Provider, Persons with Management or Control, Nominated Supervisor, Persons in day-to-day Charge, staff, students on placement, volunteers, parents/guardians, children and others attending the programs and activities of DSCC.

BACKGROUND AND LEGISLATION

Background

The United Nations Convention on the Rights of the Child is founded on respect for the dignity and worth of each individual, regardless of race, colour, gender, language, religion, opinions, wealth, birth status or ability. When children experience nurturing and respectful reciprocal relationships with educators, they develop an understanding of themselves as competent, capable and respected. Relationships are the foundation for the construction of identity, and help shape children's thinking about who they are, how they belong and what influences them [*Early Years Learning Framework*, p. 20; *Framework for School Age Care*, p. 19]

'Constructive everyday interactions and shared learning opportunities form the basis of equitable, respectful and reciprocal relationships between educators and children. Educators who are actively engaged in children's learning and share decision-making with them, use their everyday interactions during play, routines and ongoing projects to stimulate children's thinking and to enrich their learning. These relationships provide a solid foundation from which to guide and support children as they develop the self-confidence and skills to manage their own behaviour, make decisions and relate positively and effectively to others.' (*Guide to National Quality Framework* – refer to Sources)

Child Safe Standard 7 requires services to have strategies to promote the participation and empowerment of children. When children feel respected and valued, they are much more likely to speak up about issues of safety and wellbeing. Enabling and promoting the participation of children within a service has multiple benefits in addition to enhancing the safety of children, including demonstrating a commitment to upholding the rights of children, checking that what the service is doing is what children want and building the communication and leadership skills of children.

In developing an *Interactions with Children Policy*, early childhood education and care services must review and reflect on the philosophy, beliefs and values of the service, particularly with regard to the relationships with children. The development of this policy should also be informed by the service's *Code of Conduct Policy*.

DEFINITIONS

The terms defined in this section relate specifically to this policy. For commonly used terms e.g. Approved Provider, Nominated Supervisor, Regulatory Authority etc. refer to the *General Definitions* section of this manual.

Adequate supervision: entails all children (individuals and groups) in all areas of the service, being in sight and/or hearing of an educator at all times including during toileting, sleep, rest and transition routines. Services are required to comply with the legislative requirements for educator-to-child ratios at all times. Supervision contributes to protecting children from hazards that may emerge in play, including hazards created by the equipment used.

Adequate supervision refers to constant, active and diligent supervision of every child at the service. Adequate supervision requires that educators are always in a position to observe each child, respond to individual needs and immediately intervene if necessary. Variables affecting supervision levels include:

- number, age and abilities of children
- number and positioning of educators
- current activity of each child
- areas in which the children are engaged in an activity (visibility and accessibility)
- developmental profile of each child and of the group of children
- experience, knowledge and skill of each educator
- need for educators to move between areas (effective communication strategies).

Behaviour guidance plan: A plan that documents strategies to assist an educator in guiding a child with diagnosed behavioural difficulties or challenging behaviours to self-manage his/her behaviour. The plan is developed in consultation with the Nominated Supervisor, educators, parents/guardians and families, and other professional support agencies as applicable.

Challenging behaviour: Behaviour that:

- disrupts others or causes disputes between children, but which is part of normal social development
- infringes on the rights of others
- causes harm or risk to the child, other children, adults or living things
- is destructive to the environment and/or equipment
- inhibits the child's learning and relationship with others
- is inappropriate relative to the child's developmental age and background.

Notifiable complaints: The Regulatory Authority is required to be notified of a complaint that alleges:

- a serious incident has occurred or is occurring while a child is being educated and cared for by a service
- the National Law and/or National Regulations have been contravened.

Complaints of this nature must be reported by the Approved Provider to the Regulatory Authority within 24 hours of the complaint being made (Section 174(2)(b), Regulation 176(2)(b)). If the Approved Provider is unsure whether the matter is a notifiable complaint, it is good practice to contact DET for confirmation.

Notification of complaints must be submitted within 24 hours through either the NQA IT System portal: <http://www.acecqa.gov.au> or where this is not possible, the Regulatory Authority must be contacted directly.

Inclusion Support Program: Funded by the Commonwealth Government to assist services to build their capacity and capability to include children with additional needs in mainstream services; providing them with an opportunity to learn and develop alongside their typically developing peers: <https://www.education.gov.au/>

Mental health: In early childhood, a child's mental health is understood as a child's ability to 'experience, regulate and express emotions; form close and secure interpersonal relationships; and explore the environment and learn – all in the context of family, community and cultural expectations for young children. Infant mental health is synonymous with healthy social and emotional development. <https://beyou.edu.au/>

Preschool Field Officer (PSFO) Program: The role of the PSFO Program is to support the access and participation of children with additional needs in preschool: <http://www.education.vic.gov.au>

Serious incident: A serious incident (regulation 12) is defined as any of the following:

- the death of a child while being educated and cared for at the service or following an incident at the service
- any incident involving serious injury or trauma while the child is being educated and cared for, which
 - a reasonable person would consider required urgent medical attention from a registered medical practitioner; or
 - the child attended or ought reasonably to have attended a hospital e.g. a broken limb*
- any incident involving serious illness of a child while that child is being educated and cared for by a service for which the child attended, or ought reasonably to have attended, a hospital e.g. severe asthma attack, seizure or anaphylaxis*.
 - *NOTE: In some cases (for example rural and remote locations) a General Practitioner conducts consultation from the hospital site. Only treatment related to serious injury or illness or trauma are required to be notified, not other health matters.
- any emergency for which emergency services attended. NOTE: This means an incident, situation or event where there is an imminent or severe risk to the health, safety or wellbeing of a person/s at an education and care service. It does not mean an incident where emergency services attended as a precaution.
- a child appears to be missing or cannot be accounted for at the service
- a child appears to have been taken or removed from the service in a manner that contravenes the National Regulations
- a child was mistakenly locked in or out of the service premises or any part of the premises.

Examples of serious incidents include amputation (e.g. removal of fingers), anaphylactic reaction requiring hospitalisation, asthma requiring hospitalisation, broken bone/fractures,

bronchiolitis, burns, diarrhoea requiring hospitalisation, epileptic seizures, head injuries, measles, meningococcal infection, sexual assault, witnessing violence or a frightening event.

If the approved provider is not aware that the incident was serious until sometime after the incident, they must notify the regulatory authority within 24 hours of becoming aware that the incident was serious.

Notifications of serious incidents should be made through the NQA IT System portal (<http://www.acecqa.gov.au>). If this is not practicable, the notification can be made initially in whatever way is best in the circumstances.

Attachment 1:

Procedures for the guidance of normal challenging behaviour in young children

Guidance is a term that is used in relation to guiding young children toward desirable and appropriate behaviours. Through positive, consistent and non-threatening behaviour guidance techniques the staff aim to assist children in becoming happy and co-operative participants in the programme.

Every effort is made to assist the children to learn appropriate behaviours in a positive manner. The underlying goals in all behaviour guidance strategies are to promote, not diminish, the child's self-esteem. A strong emphasis is placed on being positive, respectful and consistent.

For all children, staff should:

- Understand the needs of individual children and those in the group and acknowledge that many factors could influence behaviour.
- Base their expectations on the child's individual level of development.
- Respect the cultural differences in children.
- Respond to children proactively, rather than reactively.
- Encourage all children to express themselves and be comfortable enough to offer opinions.
- Assist children to develop self-reliance and self-esteem.
- Assist children to control their behaviour, and to understand the behaviour of others.
- Anticipate potentially unacceptable behaviours and eliminate situations and physical arrangements that may encourage inappropriate behaviour.
- Reinforce children's positive behaviours and provide positive role models.
- Encourage children to resolve potential conflicts for themselves, but step in when needed.
- Acknowledge a child's good intentions, (even if they were carried out inappropriately).
- Acknowledge that it is the behaviour that is inappropriate and NOT the child.
- Allow choices in decision making and be prepared to accept the child's decision if appropriate.
- Be consistent in the guidance of all children.
- Work cooperatively with parents/guardians on issues relating to the guidance of their child's behaviour, keeping them informed of the techniques and methods used.
- Respect the confidentiality of both the parents/guardians and child when dealing with issues of behaviour guidance concerning an individual child.
- Make sure that children are not put in a position where they feel frightened, ashamed, humiliated, embarrassed, insecure, or isolated. This includes being aware of the tone and body language that staff use when guiding children's behaviour.
- Provide a set of basic developmentally appropriate behavioural rules which:
 - Emphasise positive actions. ○ Give children reasons for the limits.

- Are implemented in a consistent manner.
- Are reinforced regularly.
- Ensure each child's dignity and rights will be met at all times.

Staff should seek assistance or support whenever necessary.

PROHIBITED ACTIONS IN DISCIPLINE STRATEGIES

In accordance with relevant legislation and the centre's philosophy, the following actions are prohibited at all times:

- Corporal punishment of any form including smacking, pinching, slapping and shaking.
- Emotional abuse of any form including name calling, ostracism, shaming, derogatory comments about the child or family and threatening, humiliating or frightening language.
- Punishment of any form with regard to toileting habits, or lack thereof.
- Physical restraints of any form/kind.

The use of corporal punishment or other types of abuse constitutes grounds for immediate dismissal of a staff member.

PROCEDURES FOR THE GUIDANCE OF ONGOING UNACCEPTABLE BEHAVIOUR

When dealing with unacceptable behaviour, staff should bring it to the attention of the Director then:

1. Consult and assess the availability of support

Discuss with the parent/guardian:

- The unacceptable behaviour shown by the child.
- Possible strategies that could be implemented to help ensure consistency between home and the centre.
- Resources or changes to the environment/program that may be required for a behaviour guidance plan to be implemented e.g. changes to routines and transitions.
- The support already accessed by the family to assist with managing the child's behaviour.
- Other support available, such as a Preschool Field Officer (refer to Definitions), referral for specialist assessment and additional adult support (written consent is required from parents/guardians before any intervention/assessment is undertaken).

2. Develop a behaviour guidance plan which is:

- Based on the consensus reached with the parent/guardian on the strategies to be used.
- Clear and easily followed by all staff, parent/guardian and/or volunteers working with the child.
- Discussed in detail with other staff.
- Reviewed and revised by both the parent/guardian and staff.

3. Refer the situation to the Director if:

- The staff are concerned that the child's behaviour may put themselves, other children, or others at risk and the consultation with the parent and others and the behavioural guidance plan has not resolved the problem.
- Resources such as Preschool Field Officers, referral for specialist assessment, additional adult support and/or training for the staff and/or parent may be needed (noting that consent from parents/guardians must be given before any intervention/assessment is obtained).

4. The Management Committee should become involved when:

- Determined by the Chair of the Management Committee.
- Requested by staff.
- A parent/guardian lodges a complaint concerning a child's behaviour that is threatening the safety of other children.
- They have concerns about the unacceptable behaviour of a child and the effect of this on other children, staff, etc.
- There is an occupational health and safety issue involved for staff or others at DSCCC.

The Management Committee will attempt to resolve the issue as soon as possible (see Complaints and Grievances Policy for procedures), especially if the child's ongoing unacceptable behaviour is putting themselves, staff and/or other children and adults in danger.

In the event that the Management Committee becomes involved, staff should:

- Not divulge confidential information provided by the parent/guardian without first obtaining their consent.
- Provide only relevant information to the sub-committee/Committee in order to assist with the resolution of the issue.

If a resolution involves removing the child from the centre, this recommendation shall be referred to the Management Committee for a decision.
